Here's the files Megan made. I'm not sure if this is what you are looking for, but when I asked her about it she resent me the email with the files in it. Instead of forwarding you the mess of emails attached I downloaded and attached the logo files. Let me know if you need something different than this.

Thanks Ryan. I guess I was looking for the photoshop or illustrator (or whatever program) file used to create it, or whatever original file it is before it is exported to a PDF. If you can't get it, no problem.

I looked up my assignment due date and it is due 12 December. If you are interested in knowing what the assignment is here is a link to it: <http://www.classesbynikki.com/176dreamweaver/assignment11.html>

I wanted to show you so you knew what I was probably going to try to incorporate into the site. If there is more that you want, I will definitely implement it, but if it's "extra" as far as the assignment goes, I might not get to it before 12 Dec. If you don't want something then I can take it out after I turn in the assignment too.

So some questions just to sorta get an idea of what you're thinking or to help put words to your thoughts, here are some more questions:

1. Do you like the color scheme? I tried to match your cards but if there is too much black or not enough white or grey then let me know.
2. Do I have pages in the navigation bar for all of the information you are trying to convey?
3. Do you like the design? What do you not like about it? Is it too simple? Too much? Not artistic enough? Are you interested in a sort of slideshow of key pictures instead of just one static picture?
4. Do you like the layout? What do you not like about it?

That's all I can think of for now. Just want to get a sense of what your thinking about it.

Thanks!

Autumn

I thought it might be easier to forward you this so I didn't mess things up in translation. I'm not sure if you have the files, but if it's possible to get them to Autumn that would be awesome. Thanks!

Ryan
